Circular

Class LKG

16th June 2021

Dear children and parents,

A warm welcome to the academic year 2021-2022.

Learning by online mode has become imperative. Together we can give the young ones a good schooling experience. Pre-primary school is a foundational program to initiate learning in the little ones. Students learn the content and subjects related to their age in an interactive way of learning via Radius Edutech an online Digital Platform every day.

We work towards engaging the mind of the pre-schooler and help them to perceive learning as a mode of enjoyment and exploration. We involve children in different activities to observe the interests of the young ones in different arenas.

Our curriculum includes Language development through role plays, storytelling, Gross motor development, Critical thinking and learning to make choices, Creative work and constructing meaning to what they learn. (Learning how to learn), Social skills and good habits, concept, formation, pre-math concepts, health and hygiene and many more.

As our partners we request parents to:

- Ensure that the child is punctual to class, in school uniform with school supplies ready.
- Ensure that parent or family member accompanies the child every day to class.
- Guide the child in completing the class activity
- To motivate the child, record the children activity or personal skills and share it with the teachers to enable them to post in school App.
- Please download Sanghamitra School App from Google play in any android phone.
- If you are using iPhone(Apple), you can access SANGHAMITRA SCHOOL APP from iPad/tablet/desktop through the link: interaction.rigkno.com
- Regular feedback sessions will be held with parents to understand the child progress and understanding
- Please download the EZ school app for the payment of school fees.
- Teachers can be contacted through the class WhatsApp group by phone or email.
- Please find enclosed contact details of our teachers.

Thanking you for all your cooperation. Together let us make this year a fun filled learning experience for the young ones.

Thanking You.

Ms V. JYOTHI

Class LKG & UKG Incharge

FACULTY-EDUCATIONAL QUALIFICATIONS AND CONTACT NUMBERS

Teacher's Name Contact Number and Email id	Subject	Qualifications	Experience at Sanghamitra School
