

CONGRATULATIONS RISHIK

First Lego League is a unique STEM based robotics competition for students in the age group of 9 to 16 years. It is a fun filled exploration with science a technology and life skills.

Rishik of class 8 and his team of 9 students from various schools, designed a robot using LEGO MIND STORMS technology.

They had to design, solving mission and make structural elements of a robot using the 7LL core values.

The team made 2 posters, a skit and 2 final presentations.

13 teams participated and 5 teams were selected for the nationals. Rishik's team stood first in the regional championship. They will now be going for the nationals. The event was held on 18th and 19th January at AGA KHAN ACADEMY.
