

JANMASHTAMI CELEBRATIONS ON 10th August

It was a wonderful celebration of mythology through technology.

Janmashtami was celebrated virtually in all classes from LKG to X today during their class. Festivals are important occasions which bring in joy in our surroundings and help children learn about customs, traditions. As students are coping marvellously with the pandemic and learning from home, Teachers, students and their families enjoyed the festive spirit with virtual Janmashtami celebrations.

The celebrations were held from LKG to Class X. Students learned the importance of festivals through colourful and attractive power point presentations. They learnt about the various aspects of the festival, why, when and how it is celebrated. Students sang melodious bhajans, learnt about Lord Krishnas birth, the significance of Dahi Handi, importance of flute and the gist of the Bhagwat Gita. They learnt about Lord Krishnas love for nature, animals and the important values of friendship, Truth, Wisdom and Courage.

Class IX and X students were given the responsibility of planning, organising and celebrating the occasion. And they out did themselves. They made presentations sharing important facts on Janmashtami, sang songs, performed dance recitals, conducted quiz, shared stories from mythology. Students were sad that they missed seeing little ones dressed as little krishnas and gopikas, missed the dahi handi celebrations in school.

We all hope and pray that situation should be normalized soon and we can get back to real time classes. Until then let us not miss out

on any events but make the most of it. All the virtual celebrations were excellent performances and wonderful team work on display.

Happy Janmashtami
