

Sanghamitra School

Thank You Parents, For Your Support During Remote Learning.

Date - 10/05/21

Dear parents,

Greetings!

An unusual and never imagined academic year has progressed smoothly with the participation of parents, grandparents and children. We thank you for your patience and commitment. We understand the enormous responsibility and challenges that you have faced to facilitate your child's learning at home.

Despite these unprecedented times due to the pandemic we worked together to make children's learning possible. We appreciate your continuous involvement in assisting the children with their daily assignments and art projects. We eagerly wait for the video clippings of children narrating stories, sharing their art work, singing and dancing. These videos not only bring a sense of joy but they reassure us that learning is happening. There might be a few shortcomings from our end, which are inevitable. But we are looking forward to compensate the learning gap when children return to school.

Summer is set. We are hoping that you and your family have a safe holiday staying home.

Thanking you.

Yours sincerely,

Class I and II In-charge and Teachers
